I supervise John in my service. He has been working in the endoscopy unit for 4 weeks and today totally mastered taking a biopsy. He was quick, listened to the endoscopist well, anticipated well. Technically he has developed hugely and was able to offer the biopsy correctly and support the biopsy forcep when it was being put into the scope, he opened and closed the biopsy forcep at the right time, wound the biopsy forcep out into a circle, and transferred the tissue sample from the biopsy into the specimen pot really well. His communication with the
